

#1 CABIN SUPPLIER

For over a decade, Conestoga has served the needs of the U.S. campground and resort industries.

DESIGN SERVICES

Customized to site specific requirements or any needs your campground has, including ADA compliance.

READY TO ASSEMBLE

Every cabin kit arrives onsite completely ready-to-assemble. No extra cutting needed.

ASSEMBLY SERVICES

A Conestoga assembly team can arrive onsite to complete assembly from start to finish.

TECHNICAL SUPPORT

Including phone support and assembly videos ensuring a trouble-free experience building our cabins.

Cabins Can Meet Any Code

ADA Compliancy

We understand that a physical disability should not prevent someone from enjoying the log cabin experience. This is why our project managers are always available to help you design ADA compliant log cabins. Above all, these cabins are just as easy to assemble and affordable as our traditional log cabins. Our ADA compliant cabins can include accessible features like:

- An accessible entrance
- Accessible restrooms
- ADA strobes

Energy Codes

All our cabins can be designed to meet energy codes in your state. Codes may require insulation in the floor, ceiling or walls. We have a solution for any need. Insulation can be added to the floor or ceiling. We also have two log wall options:

- **Single Wall.** The single wall option is perfect for cabins that are in moderate climates and/or for seasonal use.
- **Wall Insulation Package.** We recommend this option for year round residences in cold weather climates. This package adds a layer of insulation and interior log siding to a single wall design. This technology will meet or exceed the most stringent energy code requirements.

Building Codes

Our standard line of log cabin kits are designed to fit a wide range of needs. We also offer custom design services and will engineer and produce a log cabin kit to meet your specific needs and building codes. Since all ordinances have different building codes, Conestoga has the capability to meet or exceed all requirements with our in-house design team. This is why we have been able to build cabins in all 50 states.
