

#1 CABIN SUPPLIER

For over a decade, Conestoga has served the needs of the U.S. campground and resort industries.

DESIGN SERVICES

Customized to site specific requirements or any needs your campground has, including ADA compliance.

READY TO ASSEMBLE

Every cabin kit arrives onsite completely ready-to-assemble. No extra cutting needed.

ASSEMBLY SERVICES

A Conestoga team can arrive onsite to complete assembly from start to finish.

TECHNICAL SUPPORT

Including phone support and assembly videos ensuring a trouble-free experience building our cabins.

A Low Maintenance Solution

- The Everlast™ Log is resistant to warping, twisting and settling because it is engineered to be structurally stable.
- The Everlast™ Log is resistant to movement, shrinkage, and checking, because it is kiln-dried to 15% or below moisture content.
- The Everlast™ Log is resistant to decay, because it is kiln-dried below the 19% fungi threshold.
- The Everlast™ Log is notched, cut to length, drilled, and mortised for all electric and fasteners.
- The Everlast™ Log can be up to 28' long, which eliminates unsightly log joints, reduces the possibility of air and water infiltration and improves overall energy efficiency.

The Stronger and More Stable Engineered Log

D-Log

Flat Log

All Everlast™ Logs are either 2-ply or 3-ply.
