

Bathhouse Case Study - Twin Grove

#1 CABIN SUPPLIER

For over a decade, Conestoga has served the needs of the U.S. campground and resort industries.

DESIGN SERVICES

Customized to site specific requirements or any needs your campground has, including ADA compliance.

READY TO ASSEMBLE

Every cabin kit arrives onsite completely ready-to-assemble. No extra cutting needed.

ASSEMBLY SERVICES

A Conestoga team can arrive onsite to complete assembly from start to finish.

TECHNICAL SUPPORT

Including phone support and assembly videos ensuring a trouble-free experience building our cabins.

Situation

Communal bathhouses are becoming no longer socially acceptable in campgrounds and ADA facilities are a code requirement.

Background

Hillside Family of Agencies is committed to providing health, education, and human services to all that need it. Servicing approximately 13,000 youth and adults, they work in their communities to solve the most challenging social problems.

Challenge

To continue providing effective service to help families in the community while meeting local codes and providing comfortable facilities for men, women and children.

Solution

Hillside contracted with Conestoga to manufacture a Twin Grove Bathhouse facility that provides private bathrooms and can be customized to include a laundry, storage, or other efficient space.

The Twin Grove is 20 feet by 42 feet, featuring eight separate rooms. Six private bathrooms are spacious and identical with shower stall, toilet and sink. They could easily be used as family restrooms.

The seventh room can be outfitted to accommodate an ADA compliant bathroom with wider doors, wider shower stall, appropriate sink heights, grab bars and accessible faucet controls. The eighth room can be turned into a laundry services room by adding a washing machine and dryer. Two washers, two dryers and a storage closet fit into this space.

Results

Hillside is able to continue providing their much needed services while offering a more modern restroom facility.
